Creating Confidence

ZEUS

Your new choice in
compact solutions

The ideal choice for versatility and easy operation

ZEUS is compact, robust and powerful. It combines ease of use with a small footprint, quiet operation, and high efficiency.

ERGONOMIC DESIGN MEETS EASY AND INTUITIVE

- User-friendly color LCD
- Simple selection of operating modes such as “count” and “sort” using ergonomic buttons
- Rapid system availability with boot time under 30 seconds

BANK AND CU BRANCHES

- ZEUS can support any step in the cash handling process and it is designed to fit into current and future branch configurations

CASH CENTERS

- Fast, reliable deposit verification
- Optimum adaptation to cash center processes
- Interoperable with cash management software
- Powerful and robust design for high volume applications

TELLER COUNTER PLACEMENT

- Small footprint reduces space requirements
- Dust screen protects teller environment
- Shared teller accessibility
- Reliable authentication eases the burden on staff
- Quiet operation allows teller to conduct customer facing transactions

BRANCH OFFICE PORTABILITY

Verify ATM balancing, vault deposits, night deposits and audit functions

CASINOS

- Rapid asset verification of Cash & TITO tickets
- Interfaces with casino accounting systems (opt.)
- Ideal for cage applications
- Designed to meet the full spectrum of on wand offline casino applications

GREATER EASE OF USE

Intelligent software architecture ensures a simple and intuitive operation and also enables the user to make precise alterations to suit specific customer requirements, so offering maximum flexibility. Intuitive operation has been redefined – streamlined, unique, and scaled down to what’s important.

GREATER FUTURE VIABILITY

Numerous interfaces make it easy to integrate BPS C2 into your processing environment and to fully leverage the versatile nature of networked industry. Modern tools, apps, and web services can be seamlessly included for customer processes that are efficient and cost-saving.
